

HELP!

To All Minecraft Masters out there!

Here is the Problem...

There are some children in my class (you know who you are!) who challenged me to learn to play the game Minecraft.

I do not have the excuse of not having enough time now...BUT...

I tried..I persevered... and I cannot work it out...YET!

Please, please, please can you offer me some help and become my teacher. If you could tell me what I am supposed to do and how to get me started I would really appreciate it. I really don't want to get back to school without being able to tell those children that I can play Minecraft successfully.

Send your help leaflets, lists of instructions, videos, Top Tips, and any other things you can think of to:
virtual@beaudesert.school

I promise that I will keep you updated with my Minecraft progress and reply to your help and support.

Thank you so much and I look forward to hearing from you soon.

From Mrs McMellon
