

Our Year 3 Creative
Learning journey this term
is entitled...

Some questions that we hope to answer
this term are:

- Where in the world is Italy?
- What kind of traditions do the people have?
- How did Rome and the Romans shape history?
- Which foods are grown / eaten in Italy?
- Who were the Celts?
- Who were the Anglo-Saxons?
- What did people do for Britain?
- How did Britain change?

Bellissimo

Where will our journey take us?

MATHS

We will be investigating place value and number through practical and formal methods. As well as developing our times table skills.

LITERACY

We will be exploring different formats for writing. As in all literacy we will be improving our use of connectives, adjectives, sentence openers and types of punctuation.

In reading we will continue to develop fluency, decoding and understanding of the text.

We will be improving our spelling through weekly tests.

We are lucky to
enjoy a trip to St.
Albans Verulamium
to enhance our
learning

SCIENCE:

In science we will be investigating a topic called animals including humans.

Within this the children will get a chance to investigate different food groups. Explore how different food choices can affect our diet and what makes us healthy.

FRENCH

We will be starting to learn French. To start the children will be learning greetings and how to say who they are and how old they are as well. The children will also discover how to say how they are feeling.

P.E

In PE we will be developing our co-ordination and agility skills through a series of multi skills lessons. We have the exciting opportunity to learn Tag Rugby skills. We also have the chance to participate in boccia, curling and archery.

ART /DT

We will be using our history skills to explore patterns and mosaics. Alongside this we will be exploring Italian artists and their famous work. looking at famous Italian artists.

HISTORY

The children will start their historical journeys exploring Iron age and the Celtic tribes. Then moving onto Roman life and how it changed Britain. Finally discovering the Anglo-Saxons. How things have changed, what they did for us.

GEOGRAPHY

We will be looking closely at the country of Italy. We will explore the food, art, landscape and traditions. As well as
